WORKING NOTE · UNBRIDLED · HOW WORK GETS DONE · 13 OCT 2026

The *MC organization*

Same lesson as Grok Bot: chief of staff, specialists, verify. Put this next to their org chart. We collaborate. The deliverable is a live page.

PEOPLE

Stan and the team

Stan, Lindsay, Justin, and unit leads. Telegram, voice memo, or a dedicated agent. Nothing starts in a silo.

ORCHESTRATOR · LIVE

MC

Master of Ceremonies. Stan's digital Chief of Staff. Routes the work, reviews the output, protects the brand.

INTAKE

Qualify, then build

Intake → Qualifier → ROI → Architect → Wiring → QA → Deploy. Design before code. Always.

DELIVERY

Named specialists

The right role does the work. Cipher checks the brand. MC signs off before it leaves the building.

HOW WE RUN IT

- Design before build. Halsey before Fred.
- Every idea goes through Intake first.
- Legal work stays on zero-retention only.
- MC reviews anything that ships.
- Planned roles turn on when the unit needs them, not before.
